

Lifeboats

Every year around 300 people drown in the UK and the Republic of Ireland and over 7,000 people are involved in serious incidents at sea.

RNLI Sea Safety aims to prevent accidents and save lives by raising awareness and promoting safety to all those who use the sea.

Help us save lives by changing attitudes and behaviours.

Gas Safety this Winter

Gas installations can deteriorate during winter.

Don't leave your Boat's Gas System checks until the spring. Winterise and Check your Gas System. Avoid potential extra costs next season.
